5 Hp Tecumseh Engine Governor

Tecumseh engines are equipped with a governor. If the engine over-revs, the governor will cut back the throttle. Conversely, if the engine is under a heavy load, the governor will increase the throttle to compensate. To adjust the governor on a Tecumseh engine, you'll need only basic hand tools.

How to Adjust the Governor on My Tecumseh Engine | Hunker

The governor shaft on a Tecumseh engine should face the same direction as the governor arm to open the throttle. Adjust the governor by loosening the screw on the bottom of the governor arm. Push the governor arm until the throttle is wide open. Turn the bottom clip that is connected to the governor shaft counterclockwise to set the governor ...
