How to Convert A Honda ECU From Auto To Manual / 5 Speed

For the conversion, you will need the Clutch assembly, right crankcase clutch cover with manual clutch lever from a CL90 engine, and a clutch cable. The left handlebar lever on the earlier CT90 is used for rear brake, it will be used for the manual clutch. The later CT90 models did not have a rear brake lever on the left side.

Unfortunately it is almost impossible to predict. Looking at the Honda parts diagrams could give you some clues about what is different between the two systems. On one of my conversions an entire subframe had to be replaced as the automatic and manual versions were that different.

Manual conversion | Honda CR-V Owners Club Forums

How to convert an NSX from automatic to manual transmission. This box travelled all the way from Science of Speed in Arizona; the reasonable price and strong user feedback for their Sport 275 clutch and flywheel kit won me over. The factory manual came with a twin-plate unit, but this single plate is simpler and as a result carries 5kg less rotating mass.

Project NSX Shifts Up A Gear - Speedhunters

When i did an auto to manual swap, we did not take the steering column off. All we did was undo all the bolts using verious swivels and extensions, removed the cotter pins, then once everything was all loose, just cut the brake pedal off, then it slides right out of there. To put back in, you basicly have to do the oppisite.

Auto to Manual Conversion | HondaSwap

Ive seen quite a few people asking for a list of whats needed to do a 5spd conversion on a 6th Gen Civic. This list pertains to 96-00 Civics only. Its basically the same for 92-95 Civics, but different mounts are needed. So, here is a detailed list of whats needed to do the conversion...
